GK-Springschool 2010
Psychopathology of Emotions

GUIDELINES FOR YOUR POSTER PRESENTATION
Content
1. The main objective of the posters is to provide a basis for discussing your work (accomplished and future goals).
2. It's not necessary to provide a full account of what you did, or what you are planning.
3. Present the general conceptual idea, and highlight points you want input on.
4. Please provide a title of the poster at least one week in advance of the conference start to marta.andreatta@gmail.com

Form
1. Please use DIN A0 format – portrait (approx. height = 119 cm; approx. width 84 cm) for the poster. It would be better, if the posters are a little bit smaller to make it possible to put 2 posters together on 1 board (measure of the poster boards: height=140 cm; width=120 cm).
2. It could be useful to put a picture of you, and probably of your PI(s) on the poster, to enhance identification of the author, allowing guests to approach you without knowing you (you can use the pictures from the GK-Homepage)
3. Guidelines for creating effective poster can be easily found on the web. Examples are:
    - http://www.siam.org/meetings/guidelines/poster.php
    - http://www.swarthmore.edu/NatSci/cpurrin1/posteradvice.htm
    - http://www.ncsu.edu/project/posters/NewSite/index.html
    - http://www.people.eku.edu/ritchisong/posterpres.html

At the conference site
1. Poster boards mounted on stands will be provided.
2. Thumbtacks for mounting the posters will be available in the room.
3. If you consider preparing a handout, please bring enough copies. We don't have a copier handy at the conference site.
4. Please set up the poster on the first day of the conference.
5. Please remove the poster on Friday, after the conference has ended.
