

Program Summer School, 12th-14th October 2010

Tuesday, October 12th 2010

Time	Duration	Event	Guest	Facilitators
08:30 am	--	Departure from Würzburg	--	Marta Andreatta, Roswitha Gerhard
09:00 am	60 min	Check-in	--	Andreatta, Gerhard
10:00 am	15 min	Official start of the meeting	--	Paul Pauli
10:15 am	105 min	Interrelations of the Serotonergic System and Limbic Brain Areas: Different Approaches in Animal Models	Prof. Dr. R. Corradetti <i>The Role of Serotonergic cell Autoinhibition in Physiology, Pathology and Therapy</i>	Maria Bonn ¹ Sören Merker Antonia Post Lena Weißflog
12:00 pm	90 min	<i>Lunch</i>	--	--
01:30 pm	105 min	Serotonergic involvement in fear processing & aversive behavior	Dr. Maruschka Weber	Naozumi Araragi & Jonas Waider ² Maria Nandini Colaco Margherita Lee
03:15 pm	15 min	<i>Coffee break</i>	--	--
03:30 pm	105 min	Pain Perception and Transcranial Direct Current Stimulation (tDCS)	Prof. Dr. Andrea Antal <i>Effects of tDCS on Pain Perception</i>	Julia Geißler ³ Agnes Gajewska ⁴ Manish Asthana ⁵
05:50 pm	45 min	Poster Session	Poster with even numbers	
06:30 pm	90 min	<i>Dinner</i>	--	--
08:00 pm	Open End	<i>Casual get-together</i>	--	--

¹ NPY neurons in the rat amygdala show differential expression of serotonin receptors

² Introduction to serotonergic regulation of emotional behavior: implications for affective disorders

³ Introduction to Pain System

⁴ Application of tDCS and Psychiatric Illnesses

⁵ Introduction on tDCS

Program Summer School, 12th-14th October 2010

Wednesday, October 13th 2010

Time	Duration	Event	Guest	Facilitators
08:00 am	60 min	<i>Breakfast</i>	--	--
09:00 am	105 min	Attention to Emotion: What reaches our mind	Prof. Dr. Andreas Keil <i>The ups and downs of emotion and attention: cognitive neurophysiology of visual cortex and the role of stimulus relevance</i>	Kathrin Gschwendtner ⁶ Adrian Meule
10:45 am	15 min	<i>Coffee break</i>		
11:00 am	105 min	Emotion regulation and its correlates within the autonomic nervous system	Dr. Iris Mauss <i>Emotion Regulation Ability: Measurement and Implications for Psychological Health</i>	Lingdan Wu Stefanie Biehl ⁷ Ruben Real Sara Tupak
01:00 pm	90 min	<i>Lunch</i>	--	--
02:30 pm	45 min	Poster Sessions	Posters with odd numbers	
03:15 pm		Social Activities	Open end	

⁶ Look away: The relationship between valence, task conditions and interindividual factors in disengagement processes

⁷ EEG-correlates of emotion regulation

Program Summer School, 12th-14th October 2010

Thursday, October 14th 2010

Time	Duration	Event	Guest	Facilitators
08:00 am	60 min	<i>Breakfast</i>	--	--
09:00 am	60 min	Dreaming about Emotions	Dr. Björn Rasch <i>Emotions, Memory and Sleep</i>	Marta Andreatta
10:00 am	45 min		Dr. Blum-Oehler, GSLS	
10:45 am	15 min	<i>Coffee Break</i>	--	--
11:00 am	105 min	Emotion and morality	Dr. David Pizarro <i>The good, the bad, and the dirty: How disgust and purity influence social, political, and moral judgment.</i>	Thomas Stemmler ⁸ Sabine Volk ⁹
12.45 pm	15 min	Official end of the meeting		Paul Pauli
01:00 pm	90 min	<i>Lunch</i>	--	--
02.30 pm	60 min	Meeting for the ministerial Assessment	GK's PIs and Members	Paul Pauli

⁸ Self-conscious emotions and moral behavior

⁹ The influence of vividness on moral judgment

Program Summer School, 12th-14th October 2010

Posters:

Member	Title of Poster
Lena Weißflog	Association of Diras2 with attention-deficit / hyperactivity disorder
Adrian Meule	Food Cravings and Dietary Control Strategies Discriminate Between Non-dieters and Successful and Unsuccessful Dieters
Ruben Real	Correlates of coping in amyotrophic lateral sclerosis - an ERP study
Maria Nandini Colaco	
Margherita Lee	Hippocampal Neurogenesis during Murine and Human Ontogenesis: Same Same but Different?
Lingdan Wu	Emotion regulation in nicotine addiction
Sara Tupak	The Impact of Continuous Theta Burst Stimulation on Prefrontal Cortex Activation During Emotion Regulation
Lena Weißflog	Association of Diras2 with attention-deficit / hyperactivity disorder
Adrian Meule	Food Cravings in Dietary Restraint and Food Addiction
Stefanie Biehl	Remembering and ignoring faces: A real-life alternative to the Stroop?
