Summerschool "Biopsychology of Emotion"

GUIDELINES FOR POSTER

Content

- The main objective of the posters is to provide a basis for discussing your work (accomplished and future goals).
- It's not necessary to provide a full account of what you did, or what you are planning.
- Present the general conceptual idea, and highlight points you want input on.
- Please provide a title of the poster at least one week in advance of the conference start to gk-emotions@uni-wuerzburg.de

Form

- Please use DIN A 0 format – portrait (approx. height = 119cm; approx. width 84cm) for the poster.
- It could be useful to put a picture of you, and probably of your PI on the poster, to enhance identification of the author, allowing guests to approach you without knowing you.
- Guidelines for creating effective poster can be easily found on the web. Examples are:
    - http://www.siam.org/meetings/guidelines/poster.php
    - http://www.swarthmore.edu/NatSci/cpurrin1/posteradvice.htm
    - http://www.ncsu.edu/project/posters/NewSite/index.html
    - http://www.people.eku.edu/ritchisong/posterpres.html

At the conference site

- Your place among the poster boards will be indicated by the number listed next to your poster title in the conference program.
- Pins for fixing the posters will be available in the room.
- If you consider preparing a handout, please bring enough copies. We don't have a copier handy at the conference site.
- Please set up the poster on the first day of the conference.
- Please remove the poster on Sunday, after the conference has ended.
