

Wednesday, October 12th 2011

Time	Duration	Event	Guest	Facilitators
08:30 am	--	Departure from Würzburg	--	Marta Andreatta, Roswitha Gerhard
09:30 am	30 min	<i>Coffee</i>	--	--
10:00 am	15 min	Official start of the meeting	--	Paul Pauli
10:15 am	105 min	<i>The Neuroscience of Primary Process Affects</i>	Jaak Panksepp: <i>Implications for understanding depression and development of new preclinical models</i>	Christoph Renninger ¹ Sandy Popp ² Margherita Lee
12:15 pm	75 min	<i>Lunch</i>	--	--
01:30 pm	105 min	<i>Modeling the role of monoaminergic neurons in the course of affective disorders - from bedside to bench</i>	Thorsten Lau: <i>Stem cell-derived monoaminergic neurons: models to study molecular mechanisms of affective disorders</i>	Jonas Waider ³ Julia Geißler ⁴ Sarah Sich Karla Schraut
03:15 pm	15 min	<i>Coffee break</i>	--	--
03:30 pm		<i>Social Activities</i>	--	Marta Andreatta, Roswitha Gerhard
6:00 pm	120 min	<i>Wine Degustation and Dinner</i>	--	Marta Andreatta, Roswitha Gerhard
8:00 pm	Open end	<i>Casual getting together</i>	--	--

¹ Affective Neuroscience

² Preclinical modeling of depression

³ Serotonin deficiency and GABA imbalance a complex liaison

⁴ Affective disorders - A bedside perspective

Thursday, October 13th 2011

Time	Duration	Event	Guest	Facilitators
08:00 am	60 min	<i>Breakfast</i>	--	--
09:00 am	105 min	<i>Current approaches in clinical ADHD research - aspects of a complex disorder</i>	Marcel Romanos: <i>Developmental Psychiatry - clinical aspects and research strategies in ADHD</i>	Sören Merker Stefanie Biehl Juliane Kopf Antonia Post
10:45 am	15 min	<i>Coffee break</i>		
11:00 am	105 min	<i>Psychological antecedents of economic behavior</i>	Carlos Alós-Ferrer: <i>Social preferences and self-control</i>	Michael Zürn ⁵ Sabine Volk
01:00 pm	90 min	<i>Lunch</i>	--	--
02:30 pm	105 min	<i>Emotions: Philosophical Approaches</i>	Christoph Demmerling: <i>On the Philosophy of emotion. Problems and prospective</i>	Tim Gollasch ⁶ Thomas Bulka
04:15 pm	105 min	Poster Sessions	--	GK members
05:30 pm	30 min	PI Meeting		
06:00 pm	60 min	<i>Dinner</i>	--	--
08:00 pm	Open end	<i>Casual getting together</i>	--	--

⁵ The Bargain Hunter: Self-Esteem in modern industrial societies

⁶ Neuroscience and Philosophy

Friday, October 14th 2011

Time	Duration	Event	Guest	Facilitators
08:00 am	60 min	<i>Breakfast</i>	--	--
09:00 am	105 min	<i>Emotional modulation of the startle response</i>	Terry Blumenthal	Agnes Gajewska ⁷ Kathrin Gschwendtner Sara Tupak Anne Guhn Laura Müller
10:45 am	15 min	<i>Coffee Break</i>	--	--
11:00 am	105 min	<i>Emotion regulation and cardiac autonomic activity</i>	Julian Thayer: A neurovisceral integration perspective on emotional regulation	Adrian Meule ⁸ Ruben Real ⁹ Tobias Kaufmann
12:45 pm	90 min	<i>Lunch</i>	--	--
02:15 pm	105 min	<i>Emotion authenticity and interpersonal responses</i>	Eva Krumhuber: From face to emotion: Perceived authenticity and expression decoding	Manish Asthana ¹⁰ Lingdan Wu Marta Andreatta
04:00 pm	15 min	Official end of the meeting	--	Paul Pauli
04:00		Meetings of Promotion Committees		

⁷ Startle Modification

⁸ Cardiac autonomic activity and the self-regulation of eating behavior

⁹ Correlates of heart rate variability and decision making in moral dilemmas

¹⁰

Member	Title of Poster
Anne Guhn	Does rTMS accelerate Extinction Memory in Humans? Preliminary Data of a Fear Conditioning Paradigm
Antonia Post	Contribution of early-life adversity on the behavior of Snap25 knockout mice
Armin Wiegner	Contralateral masking in binaural-bimodal stimulation in the central auditory system
Hannah Genheim	The eyes are the windows to the soul. The interaction between emotional facial expressions and gaze direction – a ssVEP-study
Juliane Kopf	Impulsivity in ADHD – a striatal phenomenon?
Karla Schraut	Prenatal stress and adult psychopathology: Role of the serotonin transporter and epigenetic programming
Kathrin Gschwendtner	The impact of Val158Met polymorphism on neuronal correlates of emotional processing
Laura Müller	Frontal and parietal oxygenation during two diagnostic tests for Alzheimer's Disease
Sabine Volk	The vivid face of morality – an EMG study on emotional reactions to (im)moral behavior
Sara Tupak	Cognitive vs. perceptual processing of threat is associated with different neural, autonomic and behavioral correlates
Sarah Sich	Expression pattern in murine brain tissue links Cadherin-13 to the serotonergic neurotransmitter system
Stefanie Biehl	Increased Frontal, Parietal, and Fusiform Activation During Highly Distracting Stimuli
Sören Merker	SLC2A3 duplication and its potential implications for attention-deficit/hyperactivity disorder (ADHD)

Social Program

Wednesday, October 12th 2011

3:30 pm: walk to the Alzheimer Haus

There are 2 alternatives:

4:00 pm: Guided Tour (in English) Alzheimer Haus

5:00 pm: free time to discover Marktbreit on your own initiative

Or:

4:00 pm: Guided Tour (in English) in Marktbreit

5:00 pm: Guided Tour (in English) Alzheimer Haus

Then for all:

5:30 pm: Walk to Obernbreit – appr. 30 min. (or ride by bus)

6:30 pm: Wine tasting -

Weingut Löther - Schwarzenberger Straße 7, 97342 Obernbreit
